Northern Interior Cruising Committee

Northern Interior Cruising Committee Scholarship

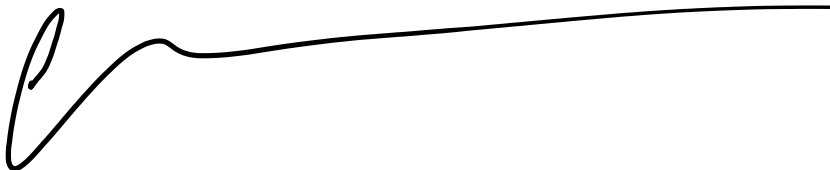

Dear Northern Interior Cruising Committee,

I would like to thank you for your generous contribution of the Northern Interior Cruising Committee Scholarship. I am very grateful to be receiving this award.

In May, I will be graduating from UNBC, completing my Bachelor of Science (Honours) in Forest Ecology and Management. Following my graduation, I plan to be working in the discipline of forest pathology, with an emphasis on pathogenic fungi. I also hope to begin the process of becoming a Registered Professional Forester. With the research that I have done at UNBC, I have found that I am passionate about forest pathology and chemical ecology. Hopefully, I will be able to start a career within this aspect of forestry. My hometown is Burns Lake. Because of this remaining in Northern British Columbia as I begin my career is important to me.

Once again, I would like to thank you for this award, the contribution greatly assists my final months of studying.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized initial 'E' followed by a long, horizontal, slightly wavy line that tapers to the right.

Ezra Culberson

Undergraduate, Forest Ecology and Management (Honours)
